

Plan Review Table - PC Assembly Instructions

Note: The following relates to an accessory for the Volanti Plan Review Table and is to be used together with the Plan Review Table Unpacking and Assembly Instructions.

<p>The Volanti Plan Review Table supports a compact PC and docking station. These are provided as optional accessories and can be supplied at the time of original delivery or as an aftermarket addition.</p>	
<p>The PC accessory is delivered as an assembled unit made up of:</p> <ol style="list-style-type: none"> 1. The PC, we pre-installed on a mounting plate. Note, it is also pre-installed with Windows 11 Pro. 2. The mounting plate. 3. A docking station, if ordered. This enables USB connection with video and touch from a laptop. <p>The screws, M6 Philips type, for fixing the mounting plate to the table are already fitted to the table. Remove them from the table on the side you would like to fit the monitor then use them to secure the plate to the table as shown here.</p>	

Wiring note: The display needs three cables connected:

- USB for touch
- HDMI or DisplayPort for video
- Power
